

Alpha Wave Compensation Plan

How members would earn from the people they bring in, what is built today, and what is still to be decided.

Prepared 5 October 2026 from the Alpha Wave system and the 2 October 2026 product meetings.

In short

Yes, there is a compensation plan. It is fully built into the system and pays through the referral tree. But it is **switched off**: no commissions are being paid, and every rate in it is a **placeholder** until the final plan is approved.

How it is meant to work

When a member buys a subscription, a share of that sale is paid up to the people above them in the tree. There are four ways to earn:

Type	Who earns	Placeholder rate	Rank needed
Share match	The buyer's direct sponsor (the person who invited them)	10% of the sale	Advocate
Level commission	Everyone above the buyer, up to 20 levels	2% at level 1, stepping down to 0.23% at levels 11 to 20	Advocate
Leadership bonus	Leaders above the buyer	2.5%, 1.5% and 1% across the first three leader groups	Certified Leader
Leadership match	Leaders, on the commissions earned by leaders below them	2% and 1%	Certified Leader

Ranks: how deep you are paid

The higher your rank, the more levels below you count toward your earnings.

Rank	Levels paid	What it takes
Consumer	0	Any member
Advocate	5	Active subscription and 3 verified referrals

Rank	Levels paid	What it takes
Candidate Leader	10	Active subscription, plan tier 7 or higher, 10 verified referrals and 3 active people you enrolled (a leadership application can stand in for the plan tier)
Certified Leader	15	Plan tier 7 or higher, 5 active people you enrolled, passed certification and identity check (KYC)
Senior Leader	20	Plan tier 9 or higher, 10 active people you enrolled, 3 Certified Leaders in your team, \$25,000 of team sales, certification and KYC

Built-in safeguards

- **30% cap.** All commissions on a single sale together can never exceed 30% of it. If a team's share would pay more, everyone's share is reduced by the same proportion, so nobody is cut to zero.
- **Inactive members are skipped.** If someone in the line is not active, their level passes up to the next active person.
- **35-day hold.** Commissions wait out a 35-day refund window before they can be paid.
- **Points are separate.** The points and badges members earn for referrals are recognition only and never turn into cash.
- **Your sponsor is permanent.** Whoever brought a member in stays their sponsor. Staff cannot move people in the tree for now.
- **Every version is kept.** Each change to the plan is saved as a new version; old versions are never edited, so past earnings can always be traced to the rules in force at the time.

Where it stands today

Item	Status
Commission engine	Switched off. It can calculate estimates only.
Rates	Placeholders, pending the approved plan.
Payouts	None. No countries are approved for payouts yet, and the staff console shows \$0.00 in every commission stage.
What members see	Nothing about commissions. Rewards and earnings are hidden during the private launch.
Live plan version	Version 2, published 1 October 2026. Its exact rates are on the Policy page of the staff console.

Decisions still open

From the 2 October 2026 meetings:

- **Build it in-house or use a provider?** The team will compare our own engine with trusted third-party compensation engines. If in-house work would take more than about seven days, an outside engine will be evaluated.
- **Stress testing.** The plan is to be stress-tested for up to 100,000 members in Phase 1, to catch loopholes before it goes live.
- **Keep it simple.** The team flagged that an overly complex plan could delay marketing by up to a year, so simplicity and honest explanation matter.
- **Final rates and rules.** All percentages above must be approved (including legal sign-off) before the engine is switched on.
